to me

Dear Jeremy,

Below please find new/amended rules from the regulations showing on Vortex ROK website (Fiches):

- 2 stroke oil can be used of any brand
- Just for clarification - the radiator and water pump can be used of any brand and of any measurements
- Regarding the exhaust muffler silencer, if the top logo won't be showing clearly as it would be faded, we will measure it and if all would be ok we will accept

Thanks in advance.

Best Regards,
Renald Farrugia
